FULLSTACK AND MOBILE APP DEVELOPER

I am Stack and Mobile App Developer with experience designing, developing, and maintaining scalable web and mobile applications. Proficient in front-end and back-end technologies, including JavaScript, TypeScript, React, React Native, Node.js, Express.js, PostgreSQL, and RESTful APIs. Experienced in building user-focused solutions, integrating third-party services, managing databases, and deploying applications to cloud platforms. Strong problem-solving abilities with a passion for writing clean, efficient, and maintainable code. Adept at collaborating with cross-functional teams to deliver high-quality software products that meet business and user requirements.

STRENGTHS AND EXPERTISE

Languages

Javascript ,Typescript ,HTML5
Kotlin and Jetpack , Python,

FrontEnd Technologies

React Native , Nest, Pug ,
Node.js, Express, Astro, Next.js,
Tailwind Css , Bootstrap

Backend Technologies

Node.js,Express.js,NestJS,REST
APIs,JWT
Authentication,WebSockets

PROFESSIONAL EXPERIENCE

RSK TECHNOLOGIES GROUP

Mobile APP and Web Developer

May 2026

Developed and maintained web and mobile applications, contributing to the design, implementation, and deployment of scalable digital solutions. Collaborated with cross-functional teams to build responsive user interfaces, optimize application performance, and deliver high-quality software products. Participated in the full software development lifecycle, including requirements gathering, development, testing, deployment, and maintenance.

Accomplishments:

Rental Management App – Full-Stack Property Management System Built a complete rental automation platform using **React Native Expo**, **Node.js**, **PostgreSQL**, and **Prisma**. Integrated **Flutterwave** for MTN/Airtel mobile money payments with automated bank settlement. Implemented **Twilio SMS** for invoice notifications and **Expo notifications** with sound alerts for real-time payment confirmations. Designed permanent tenant reference codes with webhook reconciliation, eliminating manual payment tracking. Automated monthly invoice generation via cron jobs based on lease start dates. Achieved **120% user growth** by reducing landlord administrative work by over 90%. **Tech Stack:** React Native, Node.js, PostgreSQL, Prisma, TypeScript, Flutterwave API, Twilio API, JWT, Expo Router

PROJECTS

Website: <https://beyondsports.fitness/>

Jan to May 2026

Collaborated with developers to build BeyondSports UG, a corporate wellness platform consisting of a mobile application and web portal. The platform enables employees to join fitness challenges, track activities using GPS, and promote workplace wellness.

Accomplishments:

- Developed features for the BeyondSports mobile app and web platform.
- Implemented GPS-based activity tracking and challenge participation.
- Contributed to the Corporate Admin Portal for employee wellness management.
- Assisted in developing the Coach Dashboard and System Admin Portal.
- Integrated APIs and optimized application performance.
- Collaborated in testing, debugging, and deployment activities.

Tech Stack

React , Native Expo , Tailwind Css , Nest js and Prisma ORM , Postgress, Typescript, Nodejs ,
TypeScript

RSK Technologies Group Website
<https://rsktech.net/>

Accomplishments:

- Designed and developed the official company website using Next.js, React, TypeScript, and Tailwind CSS.
- Built responsive and reusable UI components to ensure a seamless user experience across devices.
- Optimized website performance, accessibility, and mobile responsiveness.
- Collaborated with stakeholders to implement business requirements and company branding.

Personal Projects

JUNE 2025 -SEPTEMBER 2025

Mayondo Wood & Furniture Management System

Developed a comprehensive inventory and sales management system for a furniture business to track stock entries, sales transactions, and generate business reports.

Accomplishments:

- Stock Management: Implemented inventory tracking system for raw materials and finished furniture products with real-time stock level updates
- Sales Processing: Built sales entry module that records transactions, calculates totals, and automatically updates inventory quantities
- Receipt Generation: Automated digital receipt creation for each sale, stored in the database and printable for customers
- Reporting Dashboard: Created analytics dashboard displaying sales reports, stock summaries, and business performance metrics
- User Authentication: Secured the system with JWT-based authentication and role-based access control

Technologies : **Frontend** --Vue.js, Vue Router, Axios , **Backend** --Node.js, Express.js ,
Database - Neon PostgreSQL, Prisma ORM , **Authentication**--JWT, bcrypt
Styling – CSS3,Tailwind CSS

EDUCATION

Refactory Academy In Ugnada

Certificate of software engineering

CodeAlpha

Internship as Mobile Application Developer

Refactory Academy

Internship in Software development
